

CDM COMPLIANT.

Today, you as the client, have a responsibility to be CDM 2015, no avoiding this.

DIAMOND **RESIN** FLOORING takes all this hassle away for you by taking care of everything from start to finish as follows:

- Every job has a dedicated supervisor that stays on site with his crew from set up until hand over.
- Your dedicated site manager will be SSSTS and will hold first aid and fire marshal qualifications. They will run all site health and safety protocol while managing the crew and ensuring quality standards are always upheld, busy.
- Every site has a dedicated compound secured off from the public with security fencing.
- The compound is used to site the site managers office, crew welfare unit and toilets.
- All site plant is stored here out of harm's way at the end of every shift.
- The waste skip is also stored here, and rubbish and debris will always be store here and not all over the site.
